

OPTIGEN/WISDOM HEALTH TESTING

OptiGen was acquired by Mars Petcare/Wisdom Health in 2018. Many (but not all) individual tests previously available through OptiGen are now available to us on the Wisdom Health Optimal Selection panel at a total price of \$110, which includes a 15% discount. Tests not included on the Optimal Selection Panel will either be available as add-on tests through Wisdom Health or through separate individual OptiGen tests.

Prior to arriving at our Health Clinics, please review the listing of breed specific testing available through Wisdom Health at <https://os.genoscooper.com/crm/index.html#os/breeds>

For purchase and basic information, visit the following site and print your order form (Internet access will not be available at the Health Clinics site): <https://www.optimal-selection.com>

By using the promo TARHEELHC2019 you will receive the 15% discount on Wisdom Health's Optimal Selection panel.

If the tests you need are not listed on the Wisdom Health site, visit the OptiGen site at https://www.optigen.com/opt9_info.html

A 20% discount code for OptiGen tests should soon be available.
